

Aircraft Preflight Event - Can you find the squawks??

Have you ever preflighted an aircraft while in a hurry? Have you ever flown an aircraft right after it came out of maintenance? These are typical problems that pilots face on a daily basis. This is an unique event to find which pilot can find the most things wrong with an airplane during a preflight inspection. PRIZES will be awarded to the person that finds the most deficient items!

Directions: The Preflight Event will be held at Thunderbird Aviation's Crystal location. We are located on the southwest corner of Crystal Airport just off Hwy 81.

A message from the National FAASafetyTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
